Course Overview

This regulated and nationally recognised qualification has been specifically designed to increase awareness of safety considerations whilst working at height, including the importance of the equipment used and how to ensure a safe working environment.

The **Qualsafe Level 2 Award in Working at Height (RQF)** is ideal for those who work, or are aspiring to work in any type of environment that may require them to work at height, such as: construction, agriculture, forestry, factories and warehouses.

During this 3 hour course, candidates will focus on the safety considerations, legal obligations, control measures and reporting procedures for working at height.

What's Covered?
